but we should be together  
come on all you people standing round

1.

WE SHALL CREATE OUR REVOLUTIONARY CULTURE EVERYWHERE

Everyone should be able to express and develop the revolution  
through art, music, work, dance, sculpture, theater, and all means  
open to the imagination. Materials should be made available to all people.  
We must defy all puritanical restraints on culture and sex.

*To Love We Must Live  
To Live We Must Survive  
To Survive We Must Fight*

We are sick of the media's attempts to indoctrinate, distort our culture,  
at the same time glorifying their heroes -

## WORLD IN REVOLUTION

### 2. WE WILL FIGHT AMERICAN IMPERIALISM.

We must weaken America's capacity and will to wage wars against our brothers in the Third World. America must give up the economic system that requires exploitation of these people. We have the material base (factories, technology, education) to provide a high standard of living to all Americans and help do the same for the rest of the world. It is capitalism, the organization of production for profit of a few rather

than to satisfy the needs of all men, that forces the wealth of our economy to depend upon the exploitation of others. Until capitalism is destroyed we shall fight against any American army, oppose all institutions (like the universities, high schools, and corporations) that train men to support imperialism, and we shall attempt to bring the international war home by engaging in continual actions that disrupt the business-as-usual fabric of American life.

We give full support to the true freedom fighters in Vietnam- The National Liberation Front (Viet Cong) who have fought heroically to rid Vietnam of foreign aggressors. We also support the Provisional Revolutionary Government of Vietnam, North Vietnam, Cuba, China, and all other young nations struggling to create socialist alternatives to US and Russian imperialism.

3.

WE WILL STRUGGLE FOR THE FULL LIBERATION OF WOMEN AS A NECESSARY PART OF THE REVOLUTIONARY STRUGGLE

While the material oppression of women varies in different classes, male supremacy pervades all social classes. We will resist this ideology and practice which oppresses all women. As we struggle to liberate ourselves, many of the problems of inequality, authoritarianism, and male chauvinism will be overcome. We must create an unfettered identity for women. We will abolish the stifling masculine and feminine roles that this society forces on all of us. Women should no longer be defined in terms of others than themselves - by their relationship to men and children. Likewise, men should not be defined by their jobs or their distorted role as provider. We seek to develop whole human beings and to bring together the most free and beautiful aspects of women and men.

We must end the economic oppression of women; job discrimination, the manipulation of women as consumers, and media exploitation of women as sexual objects.

We demand the full control of our own bodies and toward that end will establish free birth control and abortion clinics. We will choose our own sexual partners; we will eliminate the demeaning hustling scene which results from male chauvinism and false competition among men and women. We will resist all false concepts of chivalry and protectiveness. We will develop self-reliance and the skills of self defense. We will establish female communes so that women who so choose can have this free space to develop themselves as human beings. We will end all forms of male supremacy by ANY MEANS NECESSARY.

#### 4. WE SHALL RESIST THE DESTRUCTION OF OUR PHYSICAL ENVIRONMENT

Corporate capitalism, dedicated to profit and oblivious to the needs of the majority of mankind, has thrown the ecology of the world into chaos. The polluting of the environment, the poisoning of food, the destruction of rivers, forests, and oceans must be stopped immediately. We must use any means necessary to halt the destruction of the world's environment. Realizing that Third World people have been hardest hit by this plunder, we place priority in supporting their battle to gain control of their lands. We must begin to build a decent and beautiful environment for all people. We must create malls, parks, and places for music and wandering. Our communities must be open and supportive of their members. Young people leaving home will be welcomed with full status; businesses must be forced to contribute their profits to the community; and cooperative stores must be started to serve the community. Death to Plastik Amerika.

#### 5. WE SUPPORT THE STRUGGLE OF BLACK AND OTHER THIRD WORLD PEOPLE FOR SELF-DETERMINATION

For over 300 years white America has brutalized black, brown, red, and yellow people. We recognize and support their struggles to regain what is theirs and to control their own communities. We fully support The Black Panther Party's heroic struggle to carry out The Black Panther Party 10 Point Program and all other Third World organizations struggling to serve and protect their communities. We must help avenge the countless deaths of those people who have inspired and led the struggle for liberation in this country. We demand that Huey Newton Bobby Seale Eric Huggins Ahmed Evans Los Ceite dela Raza Martin Sostre and all other political prisoners be set free.

6. WE MUST TURN THE SCHOOLS INTO  
TRAINING GROUNDS FOR LIBERATION

Beneath the progressive facade of Seattle schools, students continue to be regimented into accepting the existing system. The schools don't tell the truth about the nature of the world. They aren't relevant to the problems which face us. They fail to prepare us to fight together against our common oppressors but instead divide us and breed cynicism and a feeling of powerlessness. They try to make us obey authorities who deserve no respect. Students must destroy the senile dictatorship of their teachers and school bureaucrats. Grading, tests, tracking, detentions, demotions, and expulsions must be abolished. Pigs and narcs out! We will eliminate the brainwashing, fingernail-cutting mass production of junior cogs for tight-ass Amerika's old age home war machine.

HIGH SCHOOL STUDENTS

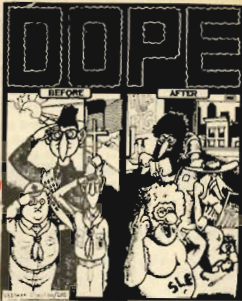

**UNITE!**

7. WE WILL DESTROY THE UNIVERSITY  
UNLESS IT SERVES THE PEOPLE

The University of Washington is not only a major oppressive institution in Seattle, but also a center for world domination. U of W attempts to crush any sensitivity in its students while training them as robots for corporations and mental soldiers to crush opposition within the U.S. and in Vietnam. Students shouldn't recognize the false authority of the regents, administration, and faculty. To prepare themselves for the struggle for human liberation, students have the right to learn what they want, from whom they want, and in the manner they decide. They have the right to take political action without academic penalty. We must build a movement to make the University relevant to Third World, working people, women and young people searching for human values and vocations. Our battle must be conducted both in the classrooms and the streets. We must change this deadly machine which steals our freedom and rapes our minds, or we must stop its functioning altogether until it can be reconstructed to serve human needs instead of to train narrow and boring clods who know only one thing: how to kiss an ass that should be kicked.

We Will  
Protect  
and We  
Expand  
our Drug  
Culture

FABULOUS FREAK  
FABLES

We relate to the liberating potential of drugs in our culture for both mind and body. Drugs inspire us to new possibilities which can only be realized in revolutionary action. We should establish drug information centers and marijuana cooperatives. We will resist the enforcement of all drug laws in our community. As a loving community we should discourage the use of hard drugs- a death trip like capitalism. The pigs would rather have us shootup than at them. We must protect the people from narcs and burn artists. All drug busts will be defined as political and we must develop all necessary defense for those arrested.

9. WE MUST SHOW WORKING PEOPLE THAT THE INTERNATIONAL STRUGGLE FOR SOCIALISM IS THEIR STRUGGLE AS WELL.

We must break through the racism and phoney patriotism that permeates American life and demonstrate that the same group that oppresses the Vietnamese and blacks, (the American ruling class) also exploits white workers, fosters racism, destroys the environment, and makes life a real summer. We are not going to be bought off by a color television with Bob Hope's face on it. This system attempts to destroy all sense of collective interests and community. We will support all just struggles of workers. At the same time we will struggle against middle class attitudes of superiority toward working people.

10. WE WILL TAKE COMMUNAL RESPONSIBILITY FOR BASIC HUMAN NEEDS.

High quality medical and dental care, including laboratory tests, hospitalization, surgery, and medicines must be made freely available. Child-care collective staffed by both men and women, and centers for the care of strung-out souls, the old and the infirm must be established. Free legal services must be expanded. Survival needs, such as crash pads, free transportation, switchboards, free phones, and free food must be met.

11. WE MUST BREAK THE POWER OF THE LANDLORDS AND PROVIDE BEAUTIFUL HOUSING FOR ALL, NOT CARDBOARD TRACTS.

Through rent strikes, direct seizures of property and other resistance campaigns, the large landlords, banks and developers who are gouging higher rents and spreading ugliness must be driven out. We will especially oppose programs such as urban removal and industrial expansion which further destroy Black and other Third World communities.

12. WE WILL TAX THE CORPORATIONS, NOT THE WORKING PEOPLE

The people cannot tolerate escalating taxes which are wasted in policing the world while businessmen are permitted to expand their profits in the midst of des-

perate social need. Seattle cannot be changed without confronting the industries, banks, insurance companies, railroads and Boeing, that together dominate the Seattle area. In particular, no one making less than \$10,000 per year should pay any taxes on food, clothing or other essentials or on property worth less than \$30,000. The entire tax burden must be shifted to the rich and to the corporations. Until a nationwide assault on big business is successful we must demand a direct contribution from business to the maintenance of our communities.

13. WE WILL DEFEND OURSELVES AGAINST LAW AND ORDER, Amerika's ruling, faced with the erosion of their authority, begin to take on the grotesque qualities of a dictatorship based on pure political power. We must abolish the police forces which put down anyone who fights for liberation. States of emergency, martial law, conspiracy charges, campus expulsions, firing of workers and professors, and all measures used to crush our movement must be resisted by any means necessary - from courtroom to armed struggle. We must arm ourselves and learn the basic skills and tactics of self defense and street fighting. All oppressed people in jails are political prisoners and must be set free. We will make our community a sanctuary for rebels, outcasts and revolutionary fugitives. We will try to bring the real criminals to trial.

14. WE MUST TRANSFORM OURSELVES INTO MORE LOVING AND COMMITTED HUMAN BEINGS

The revolution is about our lives. We will fight against a lifestyle of affluence, selfishness, and social apathy - against the self-indulgent individualism which masquerades as "doing your own thing." We will find new ways to take care of each other as brothers and sisters. We will experiment with new ways of living together such as communal families. We will struggle against the stifling elitism, egoism, and sectarianism which affects us all. We believe in organization which brings out the leadership and creativity existing in everyone.
